CANTESCO®
welding chemical products

FEATURES AND BENEFITS

- Increases tip and liner life
- Reduces friction in wire feed systems
- Reduces burn back
- Cleans and lubricates wire
- Easy to use restraining clips
- Resealable plastic bag

Both CANTESCO® Premium Wire Cleaning Pads, and Premium Wire Lube Pads are designed to clean welding wire and reduce friction in welding wire feed systems in order to decrease wear and maximize tip and liner life.

CANTESCO® Premium Wire Cleaning Pads can be used for all welding wire feed applications and provide mechanical cleaning action to remove foreign matter from the wire.

CANTESCO® Premium Wire Lube Pads come pre-lubricated with CANTESCO® Wire Feed Lubricant to further reduce friction in wire feed systems. Not for aluminum applications.

COMPOSITION

CANTESCO® Premium Wire Cleaning Pads are made with a high density grey felt material designed to maximize wire cleaning; each pad comes with a steel clip.

CANTESCO® Premium Wire Lube Pads are composed of a moderate density pink felt material to maximize lubricant mobility; each pad comes pre-treated with CANTESCO® wire feed lubricant and is coated to remain wet without containing excess liquid material. Product is non-irritating, non-toxic, odorless and does not contain silicones or chlorinated solvents. Each pad comes with a steel clip.

AVAILABILITY

Both types of CANTESCO® Premium Wire Pads are available in resealable six pad packs. The shelf-life of pre-lubricated (P-LUBE-6) pads is 3-years from the date of manufacture, cleaner pads (P-PADS-6) have a 5-year shelf-life. Product is available by contacting: sales@cantesco.com

ITEM	CODE	SIZE	QTY
P-LUBE-6	699913-12980	6 pads + clips per bag	12 bags per box
